The Sirocco Side Wind is our range of smaller side pole parasols, manufactured and designed to exacting standards with durability, strength and style in mind - the three key points of all Bambrella® products. The Side Wind features a 360° rotating base and 45° tilt so you can still find shade as the sun goes down.

The granite base weights sit in a powder coated steel base frame. The frame has adjustable feet for uneven surfaces whilst protecting the floor at the same time. We use a specialized type of polymer for the bearings meaning that they never seize up or rust.

This parasol was designed for both commercial and domestic use, bringing a magnificent focal point for any situation. We can also supply this parasol with a ground base.
